March 2026

Dear Parent/Carer,

**Hunter STEM Week ~ Monday 27<sup>th</sup> - Friday 31<sup>st</sup> January 2025**

To support our continued work within the realms of STEM (Science, Technologies, Engineering and Mathematics) and Developing Scotland's Young Workforce, we are looking to take the learning into a real-life context by delivering a STEM week in school. This has been hugely successful over the past two sessions and we are looking to build on this. This will take place in school week beginning **Monday 23<sup>rd</sup> March 2026**.

We are keen for any parent/carers or relatives/friends of families of the children who work in STEM related careers/organisations (Science, Technology, Engineering and Maths) or use STEM in their job to come along to the school and provide information about their job. This may include a workshop or short discussion with a class or classes. Items such as laptops/projectors will be provided if required. Additionally, if you have any resources, posters or leaflets, etc. that may be of interest to the children, we would love to see them.

Previously, we have had parents/carers representing the Police discussing internet safety, a statistician discussing data, a dental nurse talking to the children about teeth, a photographer discussing photography and photoshop. We would welcome any of the above and especially anyone who works within Science and Engineering careers.

If you are able to donate some of your time, or you know of anyone who would be able to support us during this week, please complete the online Google Form below by **Friday 6<sup>th</sup> March**. Alternatively, you may wish to contact me directly using the following email address: [office@hunter-pri.s-lanark.sch.uk](mailto:office@hunter-pri.s-lanark.sch.uk).

Thank you in advance for your support.
